

Data Collection and Preprocessing Phase

Date	15 March 2024
Team ID	738303
Project Title	Machine Learning Approach For Employee Performance Prediction
Maximum Marks	2 Marks

Data Quality Report Template

This dataset captures employee performance metrics derived from their previous work experiences across various industries and roles. It includes attributes such as tenure, performance ratings, productivity metrics, and feedback from supervisors.

Data Source	Data Quality Issue	Severity	Resolution Plan
Kaggle Dataset	No issue with the data quality	Moderate	No Resolution Plan needed
